UniFor

MDL System

System of individual desks, professional workstations arranged linearly or facing each other, meeting tables in various forms and sizes, complete with cable management equipment, shelves, and divider panels. A limited number of components in a single assembly system combine easily to respond to every project requirement.

The metal support structure consists tracks below the table top and contoured legs in extruded aluminum, with a polished, natural or painted finish. A special fastening system allows the various elements to be positioned as required.

Table top in high-performance laminate, with throughbody color, matte surface finish, and beveled edges.

UniFor

MDL System

MDL Full
MDL Full is characterized by the special C-shaped profile of its table top, which creates an original auxiliary shelf with practical drawers for small objects and optional power and data connections. Functional accessories include a cable tray, an auxiliary table, and a drawer pedestal on castors.
MDL Basic Plus
Task table equipped with service shelf in an L-configuration. Includes a divider panel that can be positioned as required, and cable management below the table top.
MDL System Meeting
Conference table consisting of a robust metal structure and an elegant top with beveled edges. It can be equipped with a cable raceway below the top, accessible by means of a hatch installed flush with the surface.
