

UniFor

Signum

The system features elegant, height-adjustable open-plan workstations, cabinets, sofas and storage units. The series is designed to provide upper-level staff and professionals with workspaces defined by high-end quality standards, for large open space areas and for informal meetings.

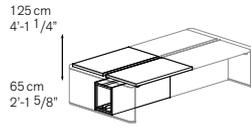

Characterized by the use of selected materials, refined structural details, and a carefully studied combinations of finishes and colors, these workstations offer advanced functional solutions together with rigorously designed forms and restrained and elegant appearance, in which technology is ever present but never intrusive.

The components of the system permit a number of linear and facing configurations in and are available in a wide range of sizes.

The loadbearing structure of the workstations, in wood, consists of a central element with incorporated cable raceway which is easily accessible and also contains the devices that control the height adjustment of the work surface.

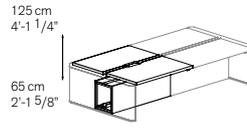

**Height adjustable workstation
for two users**
150x168xH75 cm
4'-11" x 5'-6 3/8" x H2'-5 1/2"

Worktop
