LessLess Color

This is a furnishing series in continuous evolution: with the addition of a carefully chosen color selection and new components and structural details, the system presents a vision of the contemporary office space that is joyful and fun to be in, with tables, desks, containers, and chromatic combinations that can be freely arranged to suit the user. The tables and desks of this line of task furnishings feature an exclusive table top with an insert in Forbo linoleum in the same color as the aluminum frame, for a sleek monochrome effect. The series is completed by a range of tables with cable hatches, legs that double as cable risers, and cable baskets below the table top. Each monochromatic workstation can be completed with drawer pedestals and document storage cabinets with doors, in various heights. Available in a range of colors, they permit any office environment to be personalized with an additional touch of refined design elegance.
