2023

Lounge System è una famiglia di poltrone e divani a due o treposti pensata per rispondere alle esigenze di luoghi di accoglienza pubblici o privati.

Tutti gli elementi della serie sono dotati di base metallica verniciata color peltro.

Gli elementi imbottiti possono essere rivestiti in tessuto o pelle di differenti colori e texture e sono ordinabili anche nella versione ignifuga.

Il modello con schienale alto, disponibile anche in cuoio, è progettato per permettere il lavoro autonomo o in piccoli gruppi, favorendo la privacy anche in contesti affollati e rumorosi come lobbies o ambienti open space. I divani con schienale basso possono essere configurati anche nella versione bifacciale, divenendo elemento attivo dello spazio circostante.

Si aggiungono alla serie le poltrone con seduta disponibile in due differenti larghezze. Lounge System è prodotta da Molteni&C per UniFor.
