Technical Data Sheet

Release Date  
2023

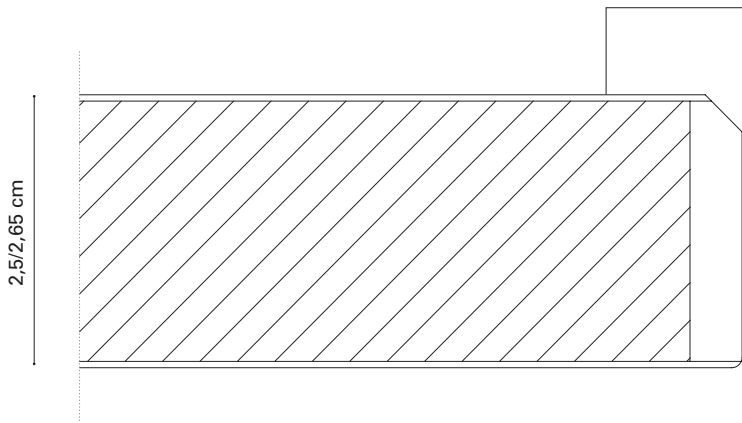

MDL System is a series of individual desks and multiple desks in linear and facing configurations, as well as meeting tables in various shapes, sizes, and finishes. The metal support structure consists of tracks below the worktop and contoured legs in extruded aluminium. A special fastening system permits the various elements to be positioned along the tracks as required, for maximum flexibility.

The MDL Full version features a special C-shaped profile that forms an original auxiliary shelf, as well as a handy space to insert small drawers and optional power and data connections. Available accessories include a cable tray, an auxiliary table, and a drawer pedestal on castors.

In the MDL Basic Plus version, the desktop is equipped with an L-shaped auxiliary shelf. The desktop is available in various sizes and finishes, including wood and high-performance laminate, all with elegantly bevelled edges.

MDL System is completed by a series of meeting tables with robust metal structures and elegant tops in wood or laminate with bevelled edges. The tables can be equipped with cable management components positioned below the top and accessed through hatches installed flush with the work surface.

TABLETOP EDGE DETAIL

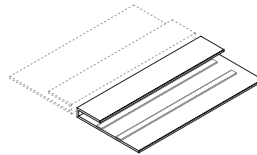

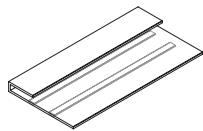

**Table top**

- Laminate, thickness 0,7 mm
- Wood veneer

**Edge**

- ABS, thickness 3 mm
- Wood

MDL FULL TABLETOPS

**Full single table top**

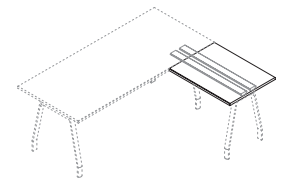

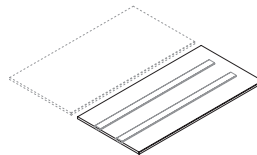

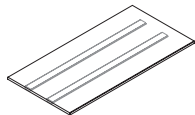

180×90×H12 cm
