Technical Data Sheet

Release Date
2025

The LessLess series, an evolution of Less, consists of tables, workstations with additional worktops, drawer pedestals and containers characterised by minimalist forms and intended for task areas, executive offices, meeting and conference rooms that require a touch of refined elegance.

Tables

The table takes the form of a monolithic structure made entirely of aluminium; the legs consist of extruded L-shaped profiles, while the top is built from folded sheet-aluminium. The legs and top are attached by means of a special fastening system that ensures both safety and high technical performance.

The tops are available in rectangular or square formats in various sizes, with an anodised finish painted in soft black. The additional worktops, attached by means of connecting elements between the tops, are supported by a single vertical structural panel designed to accommodate a monitor and a cable management system.

Drawer pedestals and cabinets

Enhanced by minimalist forms and carefully designed constructive details, the drawer pedestal on wheels and the modular cabinets are constructed with a concealed base, back and sides enclosed by a single panel, and doors equipped with push-open devices.

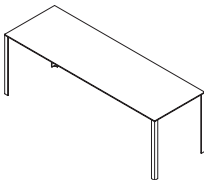

The LessLess containers are available in three heights in the freestanding version, as well as a wall-hung version (only 53 cm high). With the addition of cushions in black high-tech fabric, the drawer pedestals and low cabinets can also be used as comfortable seating.

Totem

Conceived as a formally rigorous monolith, the LessLess totem is an innovative swivel tower cabinet on a fixed base that takes the form of a smooth and compact rectangular solid, thanks to the visual concealment of the fixed base.

Accessible on two sides to make good use of its depth, it is equipped with a unique hidden door-opening mechanism, with rotation and lateral translation. Totem, drawer pedestals and cabinets, can be supplied, on request at additional cost, in the same colours as the LessLess Color series.

TABLES

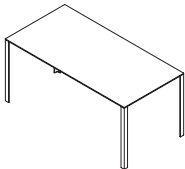

Tables with depth 70 cm

140×70×H72 cm
C LL 140 70 ..

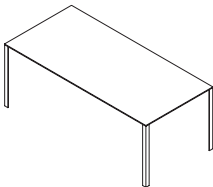

210×70×H72 cm
C LL 210 70 ..

280×70×H72 cm
C LL 280 70 ..

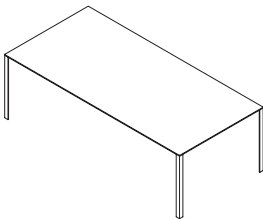

Tables with depth 80 cm

160×80×H72 cm
